

ACTIVITY: VINEYARDS AND NATURE.

Summary:

We will travel south of Santiago towards the agricultural and wine culture locality of **Pirque**. Mounting our bikes we will head to the **national nature reserve Rio Clarillo** where we will stroll through the educative trails. It is a good opportunity to take pictures of the native flora and fauna, as well as sharing a picnic beside the river. At midday we will steer to the **Vineyard Haras de Pirque**, also on bike, which posses a beautiful view of the **Maipo Valley**. Here we can walk in midst of the vineyard fields and enjoy lunch at its restaurant. (NOT INCLUDED: See Menu on our website). Finishing lunch you will a have a guided tour of one hour of the vineyard and the wine facility where you can enjoy three different strains of wine. At the end of the tour you can buy, if you please, bottles of wine before our departure back to Santiago.
